

Providing Passenger Safety that is Second to None

G3 Phone

G3 Elevator Phone

The New G3 combines compact size, reliability, flexibility with a new range of features that place this phone way in front of others in its class.

The New G3 phone is the most compact elevator telephone on the global market. Designed for the highest reliability, the G3 uses surface mount technology. With a quick four point connection, the G3 reduces your installation time. The unit is phone line powered, which means less maintenance and a longer life compared to battery operated alternatives.
