# Panachrome 3D With Voice

Providing Passenger Safety that is Second to None

**Panachrome with Voice Annunciator**  
*The Panachrome 3D elevator safety edges can now be programmed with audible warnings.*

The Panachrome with Voice Annunciator is designed specifically for sites where additional safety is required by users, such as retirement homes, hospitals and public access buildings, the Panachrome with Voice Annunciator option would provide audio cues for passengers who may not be able to see, or may fail to notice, visual cues of door movement. Customer selected messages such as “Doors are opening, safe to enter,” and “Doors are closing, please use caution,” are factory pre-recorded for quick installation. Volume can be controlled and adjusted on-site.

## Features & Benefits

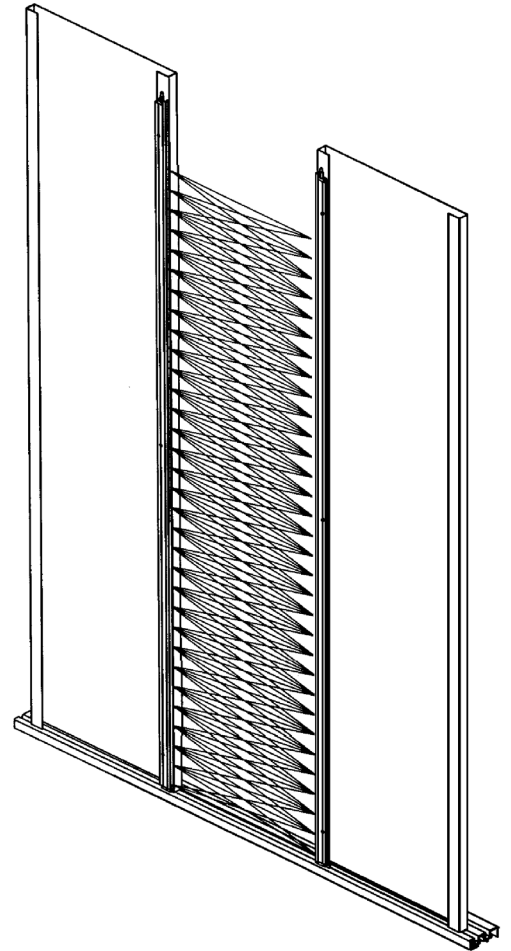

- Ease of installation
- Available on all new Panachrome Edges
- Upgrade on any current Panachrome installation
- Volume can be controlled on-site
- Customer picks pre-recorded message

Voice Announcements Add Another Layer of Safety

## Specifications

The appropriate voice message is triggered by a relay from the detector's control box, which is signaled by the door open/close signals from the door operator motor. The Voice Annunciator option is available on all new Panachrome 3D edges and as an upgrade on exiting installed edges.
