EMS5 Call Director

Providing Passenger Safety that is Second to None

EMS5 Call Director

The newly enhanced EMS5 Call Director can be used in a system to connect up to 64 devices using only one phone line.

The newly enhanced EMS5 Call Director allows multiple telephone devices to communicate within a building without the need for a dedicated telephone line. If a telephone line is connected to the system, the EMS5 Call Director allows communication outside the building. The EMS5 incorporates “FORCE THRU CALLING” to ensure emergency calls cannot be ignored.

Features & Benefits

- Saves phone line expenses
- Functions as a stand alone intercom system
